

TARS State of Club message in 1965

TARS had a good year in '64 under the able leadership of W9RDJ and we have every reason to believe '65 will be even better. First of all no Club can operate without adequate funds and Clifford McGuyer our Treasurer reports everything in good shape. He has done a commendable job on our books and the Auditors report shows every penny accounted for.

Of course we are dollar rich and equipment poor at the present time, but it is your Club and we will do what you wish in '65. Your indications were last year to dispose of all equipment and start over fresh with a new outlook. Equipment disposal will be continued at the February Auction Meeting and our HQ170, DX100, and Turner Mic will be lowered \$10.00 each and sold to the highest bidder. To be more specific, HQ170 minimum \$200.00; DX100 minimum \$85.00; Turner Mic minimum \$10.00.

The new outlook we mentioned is the recent flurry of activity on 146.9 fm in Evansville, Owensboro and Henderson. This is just what the Doctor ordered for about 30 stations are on this frequency in this area and it can't be beate. We may even get eleven meters back. We intend pushing this operation in '65.

All functions and activities of our Club will continue in a normal fashion and your participation this year will determine our activities.

73 Earl J. Green, K9PNJ, President.
